

PARWAA CLINICAL RECOMMENDATION GUIDELINES

Preventive and Remedial Education for Welfare of Autistic Children Through Ayurveda

Clinical Attribution: Dr. Vaibhav Jaisawal, Department of Bala Roga, Faculty of Ayurveda, IMS, BHU, Varanasi

Decision Support System Integration: Department of Electrical Engineering, IIT BHU

PILLAR 1: AAHAR (DIETARY REGIMEN & AGNI BALANCING)

FOODS TO AVOID (STRICT DON'T)

1. Refined Sugar (Triggers hyperactivity & gut dysbiosis)
2. Excess Salt (Aggravates Pitta & cellular fluid retention)
3. A1 Milk (BCM-7 peptide causes gut permeability)
4. Gluten-containing grains (Wheat, Maida, Semolina)
5. Preservatives & Artificial Colors (Excitotoxins)
6. Junk & Ultra-processed Foods (Commercial snacks)
7. Vataj & Pittaj aggravating items (Dry, sour, overly spicy)

FOODS TO INCORPORATE (RECOMMENDED DO'S)

1. Mixed cereals & Millets (Ragi, Jowar, Bajra - gluten-free)
2. Water chestnut flour (Singhara Atta) & Buckwheat (Kuttu)
3. Fresh Coconut Milk (MCTs for neuro-vitality)
4. Pure Desi A2 Cow Ghee (Supreme Medhya brain tonic)
5. Soaked & peeled nuts (Walnuts, Almonds for Omega-3)
6. Nutrient seeds (Chia, Sabja, Jyotishmati, Makhana)
7. Ash gourd / White pumpkin juice (Petha - cooling brain tonic)
8. Amla juice or Amla Murabba (Rasayana rich in Vitamin C)
9. Gulkand (Organic rose petal jam - soothes Pitta/temper)

PILLAR 2: NIDRA (SLEEP HYGIENE & NEURO-SENSORY REST)

- Uninterrupted Sleep (6-8 hours continuous nightly)
- Early to Bed & Early Rise (Aligns natural diurnal rhythms)
- Shiroabhyanga (Calming scalp massage with warm herbal oil)
- Padaabhyanga (Foot massage with sesame/Ksheerabala oil)
- Soaking feet in lukewarm water before bedtime (5-10 min)
- Brahmari Pranayama / Humming sound (Stimulates vagus nerve)
- Soothing/calm acoustic music (Raag Yaman / soft instrumental)
- Gentle yoga asanas (Balasana child's pose) in quiet bedroom

PILLAR 3: BRAHMACHARYA (GOOD HABITS, PLAY & ZERO-SCREEN DETOX)

MANDATORY RULE: STRICT ZERO SCREEN POLICY (No Mobile, No TV, Zero Tablet Screens)

- Morning Sun Exposure (15-20 min Sun Bath for Vitamin D3)
- Active Participation in Household Tasks (Folding, sorting)
- Group & Parallel Play Encouragement with peers/family
- Fine Motor & Sensory Games (Puzzles, building blocks, clay)
- Gross Motor Physical Activities (Cycling, swimming, ball games)
- Adaptive Pediatric Yoga & Natural Tactile Exploration

THREE GOLDEN PRINCIPLES FOR CAREGIVERS

1. Family-Centered Care

Home is the primary therapy environment for neural re-wiring.

2. Quality Time with Child

Continuous distraction-free one-on-one eye-level engagement daily.

3. Consistency (>= 6 Months)

Ayurvedic neuro-rebalancing requires dedicated patience for 6+ months.
